Election/Restrictions

Restriction to one of the following inventions is required under

35 U.S.C. 121:

- I. Claims 1-10 and 13-45, drawn to a method of increasing bone mass, and
- II Claims 11 and 12, drawn to assays to select compounds that are used to increase bone mass.

Inventions of Group I and II are not related as they have acquired different status in the pharmaceutical art. The searches involved would require a search in class 514 and class 330.

Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions ~~they~~ have different functions since the method of increasing bone mass differs from determining which compounds to use for such a purpose.

Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Theodore J. Criares whose telephone number is 308-4607. The examiner can normally be reached on 6:30 A.M. to 5:00P.M. Monday through Thursday.
